Great taste never looked so good.

A kitchen range with exceptional style and performance.
Designed for great taste.

The new Electrolux Kitchen Range combines unrivaled Scandinavian style with intuitive technology. So now you can enjoy cooking healthy, delicious food effortlessly.

The New Electrolux Kitchen Range Experience

Great taste, effortlessly

Easy-to-use functions for better cooking
Bring out the best in your ingredients

Intuitive technology

Innovations for comfortable usability
Smart, human-centric features

Premium Scandinavian design

Look, feel and function are exemplary
Designed to embellish your kitchen and your cooking

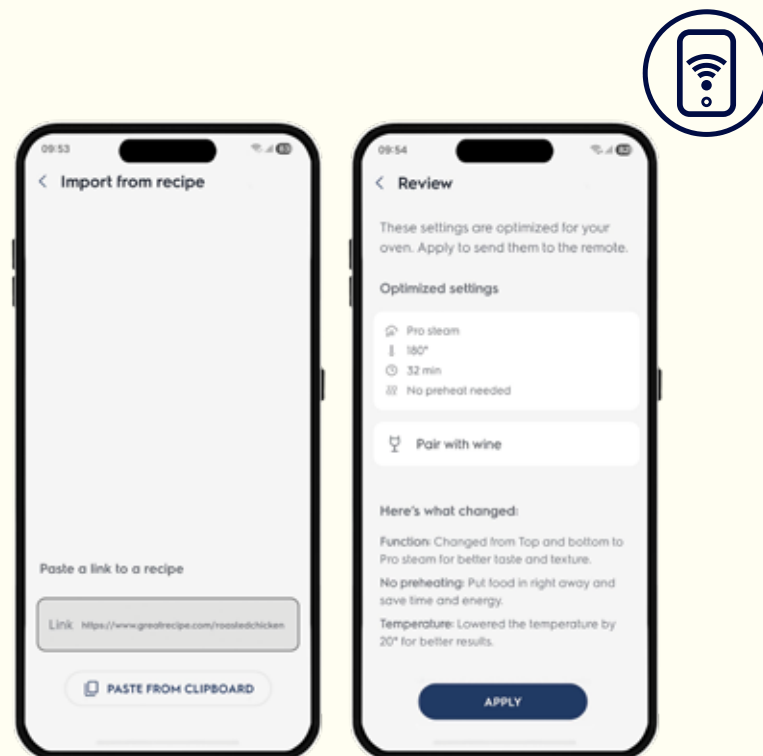

the new oven range

More flavour, at the touch of a button

smart cooking, AI TasteAssist

- AI TasteAssist adjusts and optimises oven settings to enable cooking with steam.
- Unlock your oven's full potential, and your own, with AI TasteAssist. Just send a recipe from the internet to your oven via the app and AI TasteAssist proposes optimised time, temperature, and functions to help bring out the best in every dish.

CookSmart Touch

your guide to great meal

- Effortlessly perfect results, from the everyday to the most ambitious meals.
- One touch to access and cook your favorite dishes.
- The step-by-step guidance eliminates guesswork.
- Energy-conscious choices made easy.
- Seamless experience across Ovens and Hobs.

COOKSMART TOUCH+

the new induction hob range

Assisted cooking – the ultimate sous chef

smart sensors, optimal results

- The 800 Sense Boil & Fry hob features cooking sensors that serve as the ideal cooking assistant.
- The stove intuitively adjusts to keep your pot from overboiling or your pan from burning – for consistently impeccable results whatever you're cooking.

fewer scratches, for lasting elegance

- SaphirMatt SE hobs combine smooth matte-black elegance with durable performance.
- Designed to enhance every kitchen, looking new for longer with up to 3X less visible scratches than our standard ceramic glass hobs*.

*Based on abrasion tests conducted by external Swiss laboratory in accordance with international standard IEC 60068-2-70. Scratch visibility is assessed internally in comparison to our standard ceramic glass hobs without special treatment or coating.

SaphirMatt SE hobs
deliver up to 3X less
visible scratches*

SenseBoil

no more boiling over

- SenseBoil detects when water reaches boiling and automatically lowers the temperature to a steady simmer.
- No more spillages-just controlled cooking so you can focus on preparing delicious meals.

Without SenseFry
induction hob

With SenseFry

the new gas hob range

Ensuring safety and peace of mind in kitchen

it's all in the timing

- Do you sometimes forget to turn off the cooktop after cooking? You don't have to worry if you set the timer.
- When the time is out and you're done cooking, your cooktop will automatically shut off for extra peace-of-mind.

safety lock for peace of mind

- With one press of the safety lock button, the gas supply shuts off instantly – stopping all flames at once for everyday peace of mind.
- When you're ready to cook again, simply deactivate the lock in seconds.

perfect flame,
every time

- StepFlame delivers precise control to three rings of flame with stepped settings that click into place as you change the heat intensity.
- The pre-defined settings guarantee the same flame and heat level every single time, giving you both control and flexibility.
- This is perfect for a variety of techniques and dishes from delicately melting chocolate in a bain-marie, to gently simmering sauces or stir-frying rice at high temperatures.

StepFlame

Manage the flame on your gas hob precisely with our StepFlame controls.
Select a heat level from 1 to 9, making it easy to set the right power without having to bend down to look.

Power level	Cooking method
1-2	Keep warm Gentle Cook
3-4	Simmering Stewing
5-6	Roasting Frying
7-8	Stir frying Grilling
9	Fast heating
	Pancake mode

modern matt black beauty

- With its textural matt black finish, scratches are 3X less visible and fingerprint visibility is reduced*, making it easy to clean and beautiful to look at.

*Based on 500 abrasion tests conducted by an external laboratory. Scratch visibility was assessed internally in comparison with standard ceramic glass hobs without special treatment or coating.

the new hood range

The perfect atmosphere for every home chef

intuitively clean kitchen air

- The 900 AutoSense technology intuitively senses odours, grease and steam, automatically adjusting the fan speed for optimal air quality.
- Experience a kitchen that is fresh and clean, as the hood adapts seamlessly to your cooking needs.

easy hood cleaning with heat

- Auto-HeatClean automatically cleans your extractor hood after 15 hours of use – or at the press of a button.
- Grease is melted away and collected for easy disposal, keeping your hood clear and performing at its best

the hands-free hood

- When paired with a compatible Electrolux hob, Hob2Hood activates and adjusts your cooker hood automatically when you start cooking.
- This means you can boil, sear or stir-fry without touching the hood.

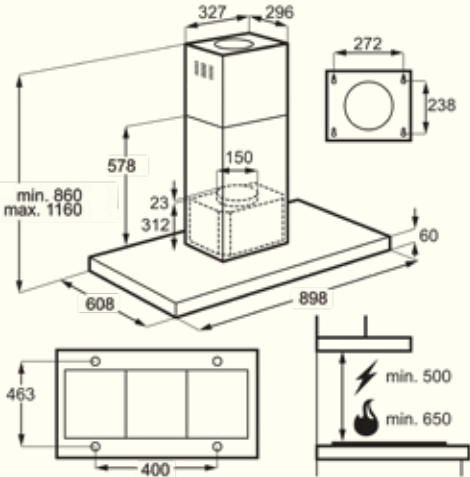

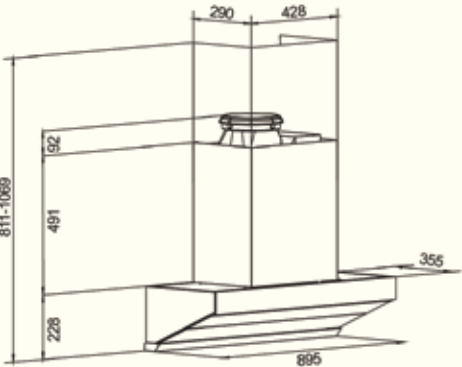

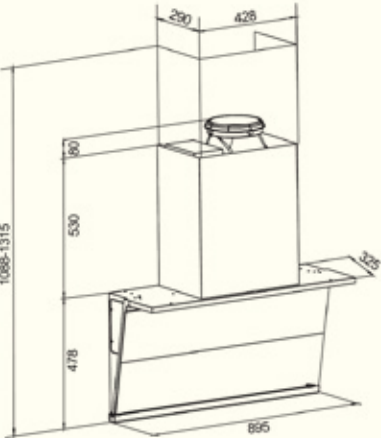

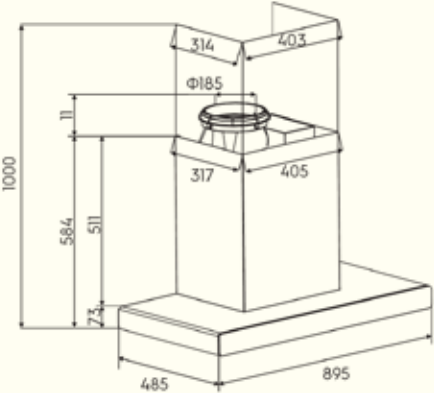

refreshingly quiet

- By activating the whisper-quiet Breeze function for 60 minutes after you've finished cooking, you can refresh the air in your kitchen without a loud extractor fan disrupting your enjoyment of a meal and conversation with friends.

the new refrigeration range

PerfectFit
Designed for your kitchen.
Built for freshness.

Integrates seamlessly
with just 4mm clearance

Sleek air ventilation cover -
top and bottom design

PerfectFit

designed for a PerfectFit

- The Electrolux PerfectFit fridge is designed to sit flush in a standard 60cm cavity with zero rear clearance. This sleek, stylish fridge is ready to integrate seamlessly into your kitchen from the moment it slides into place.

Refrigerator product specifications

522L PerfectFit Multidoor Refrigerator - 800 Series	
Product image	EQE5300A-B

GreenZone

lock in freshness for longer

- The sealed GreenZone compartment with auto humidity control keeps produce fresher for longer, removing excess moisture, reduces condensation, and retaining up to 90% of Vitamin C in green peppers for 14 days*.

*Tests performed by Anhui CQC-CHEARI Technology Co., Ltd. Laboratory on vitamin C retention in green peppers after 14 days of storage in Greenzone compartment. Results depend on the freshness level of the material on the first day of storage.

MultiChill

tailored storage, at a touch

- Customize food storage in the MultiChill compartment with three settings: ExtraChill at -2°C for meat/fish, 0°C for drinks, and 3°C for deli meats and cheese, keeping everything fresher, longer, and perfectly chilled.

save up to 10%
energy*

- Save up to 10% energy* with our smart fridge! AI CoolAssist adjusts settings to reduce the energy consumption.

*Test performed on the EQE5757BB comparing the 24 hour consumption when the CoolAssist function is activated with the default factory mode. Actual energy saving may vary, depending on environmental temperatures.

dishwasher range

ComfortLift
make it easy to load and unload

the world's first effortless loading

- The ComfortLift is the world's first dishwasher that gently lifts the lower rack to a higher level to make the loading and unloading totally effortless.
- Our unique technology lifts the basket in one effortless motion, with a light squeeze of a handle.
- It's so convenient, you'll wonder how you lived without it.

quickSelect guidance to resource-efficient dishwashing

- With QuickSelect the dishwasher guides you to the most resource-efficient program using the Eco cycle.
- Through intuitive visual signals, you can easily understand how energy and water-efficient each program is.

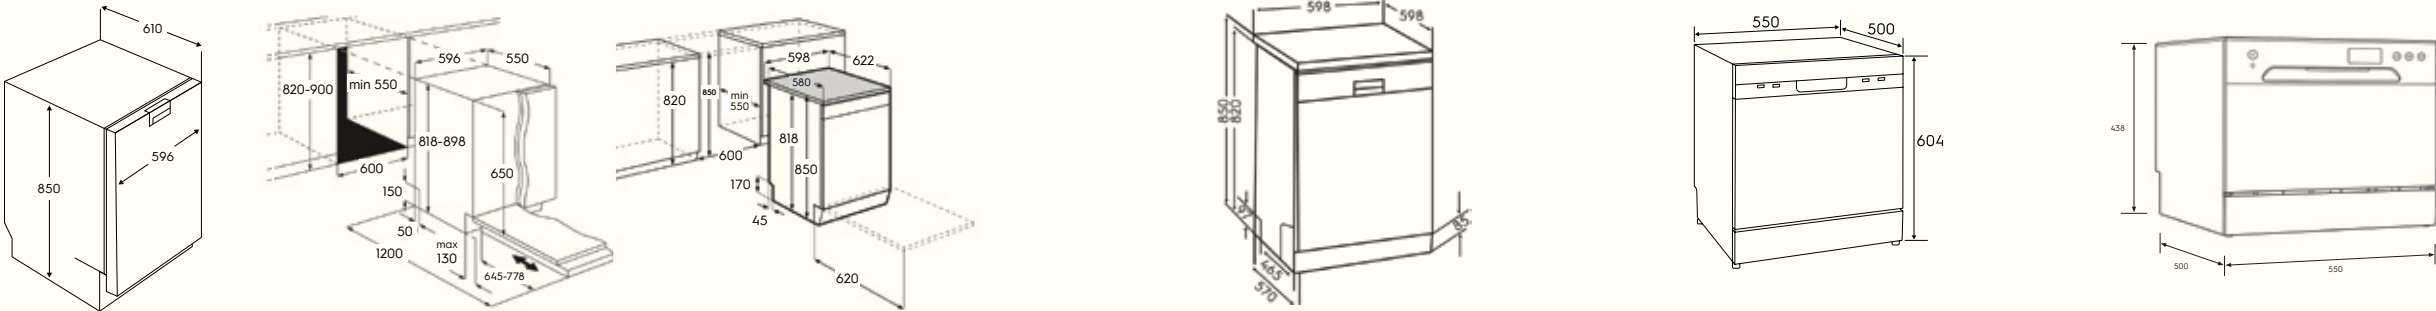

enrich drying performance

- AirDry technology finishes each cycle with a breath of natural drying with fresh air.
- The door opens automatically towards the end of the drying phase, without you lifting a finger.
- This allows air to circulate inside, leaving plates and cutlery enrich drying performance and spotless at the end of the cycle, whilst saving energy.
